SMITHERS
INNOVATE WITH CONFIDENCE

Understanding Cybersecurity Survey Results

In January, Smithers conducted a survey of companies in the manufacturing sector to share insight into the overall understanding and readiness for cybersecurity program certification. Here are some key takeaways.

80%
Handling CUI Within an Organization?

Did you know? When asked if everyone in their company understood how to handle CUI, 80% of those surveyed responded "no" or "unsure".

59%
CUI & CMMC Level of Certification

How does CUI relate to CMMC certification level? 59% of survey respondents said they were "unaware" or "unsure".

67%
NIST 800-171 Ready?

Have you completed and submitted NIST 800-171? 67% of those surveyed responded "no" or "unsure how" to meet this prerequisite of becoming CMMC certified.

80%
### Which CMMC Level Is Required?

Have you been informed by the DoD as to which level of CMMC certification you will need to comply? 80% of survey respondents answered "no" or "unsure".

73%
Understanding CMMC Requirements

73% of all survey respondents indicated that they did not know or were unsure of all of the requirements for their targeted level of CMMC certification.
